

## **SK Life Science Labs LinkedIn Community Guidelines**

Welcome to SK Life Science Labs LinkedIn profile. This channel is managed by our communications team as part of our commitment to engage with and provide information to our community. We use this channel to share information about SK Life Science Labs our products and services as well as our partnerships.

We welcome the opportunity to hear from you on LinkedIn. We do ask that you follow our Community Guidelines to ensure we provide you and others with the best experience.

SK Life Science Labs works in a highly regulated industry with unique legal considerations. We cannot engage in sensitive topics or discussions about products or treatment options offered by SK Life Science Labs or other companies.

Because of these regulations, discussions need to be on-topic and constructive. For this reason, we may not be able to respond to mentions or replies that:

- Name our or other companies' products
- Offer health or medical advice
- Include profanity, defamatory, libelous, offensive, abusive, discriminatory or demeaning content, including images, videos and links
- Are disparaging, threatening, or condone violence or illegal behavior
- Contain personal information, like the names of individuals, email addresses, phone numbers, or personal photos or videos
- Contain proprietary, confidential, sensitive or nonpublic information
- Violate copyright or intellectual property rights
- Are commercial in nature with an intent to sell products and services, or recruit fans and followers to other social communities
- Contain information that is false, inaccurate or misleading
- Are excessively repetitive, unproductive, irrelevant and/or disruptive to the community (SPAM)
- Violate LinkedIn's Platform Terms of Service

Our LinkedIn feed is in English only. Any non-English posts may be removed and not be responded to.

LinkedIn accounts that SK Life Science Labs follows and content that SK Life Science Labs likes or reposts are not an indication of SK Life Science Labs endorsement of these accounts or the content they have produced in the past or will produce in the future. Nor is it an indication that we are engaged in a business relationship with the content authors. SK Life Science Labs is not responsible for and does not assume any liability for any such third-party content. SK Life Science Labs is not responsible for the terms and conditions, privacy policy or content of any website accessed through links or references in our posts.

### *Using and storing personal identifying information*

Content you share on this channel is available to the public. SK Life Science Labs may process, store, and use personal information you choose to share through this channel in accordance with our Privacy Policy available [here](#).

SK Life Science Labs may choose to use third-party service providers to help us manage comments and messages, which means that they too would have access to any personal identifying information you share with us. Such third-party service providers are contractually bound and trained to ensure adequate protection and security of your personal identifying information.

Please note that LinkedIn also has access to the information you share with us, and by using LinkedIn, this platform may collect and share other personal information from you. For more details, please refer to the [LinkedIn Privacy Policy](#) For additional information about privacy at SK Life Science Labs, read our [Privacy Policy](#).

Thank you for reading and following SK Life Science Labs on LinkedIn.
